The brainstorm behind the GO Collection, our first non-Adirondack chair, was to make a club style outdoor chair with a taller seat height for making it easier to get in and out of. It also needed to be anything but an Adirondack. The boxy appearance of the GO Collection makes a statement to cubism and planar style furniture originally introduced with the advent of plywood-based furniture. If you are looking for contemporary seating with higher seat heights and a bit less loungy, then the GO Collection will complement your space well. GO is the chosen seating solution for the Seattle Public Library.
