BLACK	LL-TS-BN-STR47-BL

The many planter options of Tessellate can help to define a space, add unique lines, and of course, a pop of color. Designed by Ive Haugeland, founder and Landscape Architect at Marin County based Shades of Green, Tessellate arrangements make a design statement. With Ive's passion for beautiful design, she created a modular and expandable planter system. This collection features four styles of varying heights and widths, giving you the creative license to play with shape and color and create your very own geometric pattern or Tessellate.

security option:

L BRACKET

CABLE MOUNT

use with:
tessellate planters planters
